EXPERIENCE

Data Research Intern   January 2024 - May 2024
Orkestra Communications
- Conducted data research and cleansing to ensure data accuracy and reliability. Generated and qualified leads, gathering detailed information on specific prospects.
- Utilized Excel and other spreadsheet tools for data management and analysis. Applied research tools to enhance data collection and lead generation processes.
- Developed skills in team collaboration, assistance, quality assurance, and effective communication.

System Analyst, Front-End Developer, and Quality Assurance Officer   August 2022 - June 2023
Mommy Badet Online Shop (MBOS)
- Collaborated with a team to develop an online e-shopping platform, addressing order processing and administrative management.
- Key involvement in planning system navigation to meet client requirements. Led a Front-end Developer team to enhance the website's visual elements, improving the user interface and experience.
- Implemented rigorous quality assurance measures as a Quality Assurance Officer to uphold the online platform's integrity, ensuring optimal functionality and user satisfaction.
